## BLESSINGS FROM CARIBBEAN ISLANDS (WEST INDIES)

Namaskar Kapil, I am inspired by your work. I listen to your music on a daily basis because it is very unique and has a very powerful positive vibration unlike what most of our contemporary musicians are doing. What you are doing is making the best use of the instruments and your musical skills and producing music that is not only pleasing to the mind but also very invigorating. Your music compositions are what I sometimes refer to as soulful/angelic music. It is so different to what many musicians are producing that I have termed demonic music, which is very destructive to the very listeners and is resulting in such a lawless society. People don't understand both the positive and negative effects of music and how the very music they listen to impacts on their way of life. Please continue to produce music that your country once produced using aspects of the contemporary genres that is beneficial to our present day societal needs. God has entrusted that musical gift onto you for the development of humanity and you should continue to fulfill these goals, good luck. Keep up the good work.

## **BLESSING FROM (HIMACHAL PRADESH)**

I had always heard of art and their preachers. But after knowing you I really came to know how intense and hardworking artists usually are. You are happy in your own world of sounds and silence. Despite the kind of hardships and failures you have seen, your passion for music is driving you towards your desired destination. That is what I like most in you, always moving ahead with the spirit of zest and never giving up. And Above all, the energy you still conserve to teach guitar to dumbos like me is really astonishing..!! Just because your religion (music) can become the religion of a common man and the world may start living with harmony. I appreciate it and please never give up this attitude. Thanks for all you have taught me as I have seen my dream come true just because of u...

## PERFORMANCE EXPOSURE TO ALL STUDENTS (Vijay Jaiswal, Student)

I have joined guitarmonk approx 2 months ago. I was from non musical background and wanted to learn guitar and searching for the best trainer. I heard about GUITARMONK from a friend and contacted them and finally joined. Their teaching methods are so easy to understand and I was unaware to the fact that playing guitar could be so easy, they can teach anyone & I m the best example of it. They start from the basics and now I know all of them. The environment is very good to be familiar with the trainer (Kapil sir) and other students ...guitar is the 1 of the hardest musical instrument to learn...and now I can play it...in between the students gets the chance of stage exposure to face the public and crowd...just after my 5 or 6 classes we performed on Vande Matram on independence day...the experience was awesome, we were feeling like rock stars as crowd started clapping and taking our pix...and that's why I feel proud to say that I m a GUITARMONK student...thanks to Kapil sir (founder, guitarmonk)

## PERSONALITY DEVELOPMENT FOR ALL STUDENTS (Kamet Saklani, Student)

Best platform to learn guitar I am linked with guitarmonk from last 2 months. I am done with only 15-16 classes and I m very well aware about the basics of guitar and now I can confidently say that yes "I can play guitar". The kind of teaching methodology that guitarmonk adopts is appreciable. Even that person who is not from a musical background can easily learn here. Guitar is one of the hardest instrument to learn, but teaching technique of guitarmonk is very simple and smooth, so they make it easy to understand and learn.. The kind of friendly environment that guitarmonk provides is awesome. Its a scientifically proven fact that music is the best way to gain positivity in ur overall personality including ur personal and professional life. Now i can also feel the same. Thank you so much to Kapil sir for establishing guitarmonk and providing us a right path to learn guitar... Kamet Saklani student (Guitarmonk)

## INDIA'S FUTURE IN MUSIC-GUITAR MONK (Kartikey Sharma, Student)

Starting from scratch, present day, October 28, 2010, its an honor to be a part of what is known as India's greatest and biggest achievement in a formal guitar training college, which is not only State Awarded but also has more than 2000+ students currently gaining knowledge in all fields and aspects of music, whether it is recording or performance or teaching. Guitarmonk in itself has become a landmark in India's musical page. I would be failing in my duty if I don't wish Mr.Kapil Srivastava, who is, the founder and a leading and known musician in the Indian Music industry all the very best for the future and hope that one day Guitarmonk reaches International standards and gains International recognition which I'm sure, is not very far. Cheers!
